

Bus Services to CSC – Union Statement

No doubt staff will be aware of the difficulties presented by the shortage of parking at the CSC sites. These are not just confined to issues of inconvenience to CSC staff and visitors but also to the safety of commuters to Britannia and other road users.

BSU welcomes the bus service pilot and is pleased to see that the Society has taken practical steps towards improving the situation. Given that Britannia has now made this move, we would strongly encourage staff, where possible, to make full use of the facilities.

Anyone who would like to use the service but feels unable to do so due to incompatible start and finish times, should provide feedback to the pilot scheme administrator, Louise Fisackerly.

Where people still have to drive to work, we would also ask that the local environment, and safety for others, is considered.
